

BUILDINGS AND GROUNDS MANAGEMENT AND MAINTENANCE

The superintendent has the general responsibility for the care, custody, and safekeeping of all school property. The Building Services Department is responsible for the operation, supervision, care and maintenance of the school plant.

The school division maintains records of regular safety, health, and fire inspections that have been conducted and certified by local health and fire departments and building code officials. The frequency of such inspections is determined by the School Board or as required by federal, state, or local law. In addition, exit doors are equipped with panic hardware as required by the Uniform Statewide Building Code.

The school division maintains documentation of any pesticide application that includes the target pest, the formulation applied, and the specific location of the application
