

## 22-23 Division Growth Adjusted Pass Rates

The VDOE does not provide growth-adjusted pass rates at the division level, but ACPS staff calculates that information so that we can model areas of strength and areas for improvement with this metric.

The tables below show our division growth adjusted pass rates and whether they would have received a rating of Level One, Level Two, or Level Three.

Were divisions given accreditation ratings in the same manner that schools are provided, ACPS would receive the rating of “Accredited” as all indicators are at a Level One or Level Two.

Because the state does not calculate this, there are no state-wide results to use in comparison to our results.
